

The American Institute of Architects Continuing Education System

AIA/CES Registered Provider Program Summary Handout

Solid Surface — Innovation Taking Shape

CONTINUING EDUCATION SYSTEM

Provider: DuPont™ Corian®

Length: 60 minutes

Program Number: COR101

Credits: 1.0 Learning Credit

Program Title: Solid Surface — Innovation Taking Shape

HSW: Yes

Learn how to create smooth transitions between art, architecture and design with solid surface materials that are long-lasting, easy to clean, durable and elegant.

Description:

This presentation provides an understanding of the basics of solid surface and its capabilities as a design material. Learn the basic characteristics of solid surface that allow it to be an ideal design material to be used in both horizontal and vertical applications.

Learning Objectives:

At completion of this program, the participants will have a clear understanding of the following:

- What is Solid Surface material?
- Benefits of designing with solid surface.
- How solid surface material can contribute to sustainable design.
- Basic fabrication techniques used to create different aesthetics and applications.

How Taught:

The CES facilitator utilizes a PowerPoint presentation to deliver the information. The lecture is followed by a question-and-answer session.

A/V Needed:

Power, projector, and screen or plasma screen. The facilitator will supply the laptop and, if necessary, the projector.

Target Audience:

Architects, specifiers, interior designers, owners and other design professionals in the commercial market. There is no ideal audience size, groups can vary from 10 to 100. This program meets every experience level and can go more into detail if needed.

Facilitator Qualifications:

All DuPont Surfaces CES facilitators have been trained on CES guidelines and presentation skills. These facilitators can include DuPont Surfaces personnel or DuPont Surfaces Distributor sales professionals.

Costs:

There is no cost to bring this program into your firm or chapter meeting.
