## AIA/CES Provider Program Summary Handout

---

**Provider:** DuPont Surfaces

**Length:** 1 Hour

**Program:** 0100QS

**Credits:** 1 LU

**Program:** Understanding Quartz Surfaces

**HSW:** Yes

---

**Description:** Gives design and construction professionals an in depth overview of the building material Quartz Surfaces.

“CEU presentation request” as the subject line.

**Learning Objectives:** At completion of this program, the participants will have a clear understanding of the differences between engineered stone, natural stone and quartz surfaces. The program will also explore the historical development of quartz surfaces as well as the manufacturing process employed. The program ends with a look at the functional and aesthetic attributes of this exciting new product category.

**A/V Needed:** Electrical power and a screen for the PowerPoint presentation. The CES facilitator supplies the laptop and projectors.

**Target Audience:** Architects, specifiers, owners and other design professionals in the commercial market. The ideal audience size can vary from one to over 100. This program meets every experience level with time designed into the program for questions and answers.

**How Taught:** Using a PowerPoint® presentation and hands-on participation the CES facilitator will provide an in-depth overview of quartz surfaces.

**Facilitator Qualifications:** All DuPont Surfaces CES facilitators have been trained on CES guidelines and presentation skills.

**For more information:**
